ببني العقلية .. قبل الكود

10. Simple Task Board (Kanban)

Goal: Learn structured UI thinking.

Skills: State management, DOM manipulation.

Features: To Do / Doing / Done columns.

Extensions: Drag & drop.

TIPS:

- Keep designs clean.
- Focus on functionality first.
- Revisit old projects to improve them as you learn.

لسه حاسس إنك تايه وسط المعلومات؟ ما تتعلمش بس (تكتب كود)، اتعلم إزاي تبني عقليتك.

كتابي (من تايه لمبرمج)

هو دليلك العملي اللي هيختصر عليك كتير من التشتت ويحطك على الطريق الصح خطوة بخطوة.
